INTELLIGENT SOLUTIONS FOR YOUR BUSINESS

POWERED BY
IBM COGNOS SOFTWARE

Local Data Load Utility (BiLDL)

PRODUCT FEATURES:

- Create predefined filters that would most likely be used by consumers
- Enrich current reports with additional data by providing end users the ability to extend reporting attributes
- Allows consumers to define their own filter criteria for existing reports without any report changes
- Can create dynamic Multi attribute filters

Product Overview

This application utilizes local files specific to a given Cognos User to extend and enrich standard reports. Leverage existing reports with the ability for companies to:

In the end Users are self sufficient. This minimizes the need of having to develop the same version multiple similar reports for various users.

Product Line	Product name	Unit cost	Unit price	Gross profit	Planned revenue
Camping Equipment	Star Lite	\$20.00	\$70.13	\$48,768,850.48	\$176,808,129.96
